## About me

I am currently studying in an engineering school at Polytech Annecy-Chambéry in IDU (IT, Data Usage and Analysis) and I am looking for an internship abroad lasting at least 12 weeks.

## Skills

Big Data & Analysis

Fullstack Web Development

Oriented Object Programming

Git & Agile development

IT Security & networking

Oral skills

English (TOIEC 880)

Italian

## Educational background

- Since 2018 **Student in 4th year of engineering school** Polytech Annecy-Chambéry  
Student in IDU (IT, Data Usage and Analysis). Social aspect of new technologies, big data, development and data science.
- 2016-2018 **PEIP student (Preparatory class)** Polytech Grenoble  
Student in PEIP (Parcours des Ecoles d'Ingenieurs Polytech) giving the basics of computer science and mathematics.
- 2013-2016 **Bachelor's degree in IT** Lycée d'Altitude de Briançon  
Student in Mathematics and Engineering Sciences. Baccalaureat obtained with distinction.

## Professional experiences

- 2019 **Intern** Fournier SA, Thones  
From July to August 2019, I was an intern at Fournier. My missions were to design drawers for the production line and to ensure a certain level of quality before transporting the product to the next line.
- 2018 **Multi-purpose employee** McDonald's, Annecy  
From September to October 2018, I was employed as a versatile team member, mainly in order assembly and some other counter-related activities in complete autonomy.
- 2018 **Kitchen steward** Restaurant Le Saint Inn, Brison-Saint-Innocent  
From July to August 2018, I was employed as a kitchen helper in this restaurant. For two months I took care of all the secondary tasks related to cooking and dishwashing.
- 2016 **Worker** SARL CEC, Châteauneuf-les-Martigues  
From June to July 2016, I was employed as an electrical plumber in a construction company.

## School and extra-curricular projects

- 2019 Chat interconnecting several users connected to the same network. Mobile social network application for recipes and nutrition. Social network based on users' dreams.
- 2018-2019 Different websites attempts.
- 2014-2019 Various projects related to Minecraft servers.

## Interests and extra-curricular experiences

- Responsable Réseau of the BDE of Polytech Annecy-Chambéry 2019-2020.
- Artificial intelligence, stocks analysis, blockchain and cryptography.
- Several temporary missions (interim)
- Third place at the event Hack Your Sport 2019.
- Participation at la nuit de l'info 2018 and the Hackaton organized by la Direction Générale Des Finances Publiques (2019).
- Sports (bicycle, snowboarding, handball, climbing...).
