About me

I am currently studying in an engineering school at Polytech Annecy-Chambéry in IDU (Data and Usage Computing).

Skills

Java, MySQL, C#, UNIX, Python

Git, C, C++

LATEX, HTML, PHP, Node JS

Office skills

Oral communication

English (TOIEC 880)

Italian

Educational background

- Since 2018 **Student in 4th year of engineering school** Polytech Annecy-Chambéry
Student in IDU (Data and Usage Computing). Social aspect of new technologies, big data, development and data science.
- 2016-2018 **PEIP student (Preparatory class)** Polytech Grenoble
Student in PEIP (Parcours des Ecoles d'Ingenieurs Polytech) giving the basics of computer science and mathematics.
- 2013-2016 **Bachelor's degree in IT** Lycée d'Altitude de Briançon
Student in Mathematics and Engineering Sciences. Baccalaureat obtained with distinction.

Professional experiences

- 2019 **Intern** Fournier SA, Thones
From July to August 2019, I was an intern at Fournier. My missions were to design drawers for the production line and to ensure a certain level of quality before transporting the product to the next line. I was thus immersed in a new environment where autonomy is the key word to carry out my missions.
- 2018 **Multi-purpose employee** McDonald's, Annecy
From September to October 2018, I was employed as a versatile team member, mainly in order assembly and some other counter-related activities in complete autonomy.
- 2018 **Kitchen steward** Restaurant Le Saint Inn, Brison-Saint-Innocent
From July to August 2018, I was employed as a kitchen helper in this restaurant. For two months I took care of all the secondary tasks related to cooking and dishwashing. In addition, I have been a multi purpose steward most of the services, ensuring a global approach to the functioning of a kitchen.
- 2016 **Worker** SARL CEC, Châteauneuf-les-Martigues
From June to July 2016, I was employed as an electrical plumber in a construction company. I was completely autonomous from the first week. This job made me discover the world of business.

Interests and extracurricular experiences

- Responsable Réseau of the BDE of Polytech Annecy-Chambéry 2019-2020.
- Several personal computer projects.
- Sports (bicycle, snowboarding, handball, climbing...).
- Fourth tie in the André PARENT's contest, 2015 (Paris).
- Participation at la nuit de l'info 2018.
- MATH.en.JEANS, Participation in numerous conferences in French and English to present my subjects of mathematical studies during high school.
